SUMMARY

Seasoned Software developer with more than two years experience in creating native iOS and Android applications. Skills include ReactJS, JavaScript, Redux, HTML/CSS, GraphQL, Node.js plus other similar technologies for the creation of cutting-edge software products that leverage both platforms potentials.

EXPERIENCE

React Native Developer, 04/2023 - 02/2024

Information Tech Consultants - London, UK

- **Implemented Passport/ID Scanning Feature:** Developed a key feature for scanning passports and IDs using React Native, ensuring accurate and seamless document capture. Guided junior team members in understanding the technology and process.
- **Enhanced Security Measures:** Worked closely with backend developers to implement a secure authentication system, including time-limited sessions and secure login processes. Prioritized maintaining high security and protecting user data.
- **Improved App Security with Device Verification:** Developed a two-step verification system, including OTP integration for phone number validation, to enhance app security. Ensured a smooth and secure user experience.
- **Integrated Compliance Steps:** Designed and implemented an easy-to-understand declaration agreement step within the app, ensuring users understood and agreed to necessary policies.
- **Optimized State Management with Redux:** Utilized Redux Toolkit and Redux Saga to manage app state and handle complex workflows efficiently. Fostered a collaborative environment by coordinating with other developers.
- **Enhanced Navigation and User Journey:** Implemented a smooth navigation flow using React Navigation, improving the overall user experience. Focused on creating a seamless transition between app screens.
- **Integrated Real-Time Crash Reporting:** Set up Crashlytics to track and report app crashes, allowing for quick identification and resolution of issues. Used analytics tools to gain insights into user behavior and improve the app experience.
- **Boosted App Performance:** Conducted thorough testing and optimization to ensure the app runs smoothly across various devices and network conditions. Always aimed to provide a high-quality, reliable experience for users.
- **Met schedule** using excellent planning and coordination skills.
- **Consistently met and exceeded service time and quality targets** by efficiently managing workload and delivering high-quality customer interactions.
- **Maintained clean and safe working environments** to effectively eliminate accident risks and ensure a secure workspace for all team members.

Software Engineer, 07/2018 - 08/2020

4W Technologies Ltd. - Chennai, India

- **Developed and implemented mobile apps** using React Native, effectively translating wireframes and designs into functional

SKILLS

Languages:

- JavaScript (ES5, ES6+), TypeScript, Java

Frameworks & Libraries:

- React Native, Android, iOS
- Node.js, Express.js, Spring Boot, Django
- Redux, Redux Saga, React Navigation, Redux Thunk, Redux Toolkit, Redux Toolkit Query, React Hook Form, Formik
- React Native Paper, React Native Elements, UI Kitten

Testing:

- Jest, React Testing Library, Enzyme, Detox, Istanbul, Cypress, JUnit

APIs & Data:

- REST, JSON, GraphQL, Elasticsearch, Redis, AJAX

Design Patterns:

- Singleton, Factory, Observer, MVC, MVVM

Cloud Services:

- AWS: EC2, Elastic Beanstalk, S3, Route 53, CloudFront, RDS, CloudFormation, Lambda
- GCP: Compute Engine, App Engine
- Azure: SNS, SQS, CloudWatch, CloudTrail, DynamoDB, API Gateway, IAM

Databases:

- MySQL, MongoDB, RDS, DynamoDB, Realm

Firebase:

- Analytics, Distribution, Cloud Messaging, Firestore, Authentication, Crashlytics

Project Tools:

- JIRA, Trello, Azure DevOps, Agile, Scrum

Version Control:

- GitHub, GitLab, Bitbucket

Web Technologies:

- React.js, HTML, CSS, SaaS

Other Tools:

- Postman, PubNub, SonarQube, Figma

Soft Skills:

- Communication, Attention to Detail, Critical Thinking, Problem-Solving

EDUCATION

Bachelor Of Technology : Electronics and Communication, 2017

UNIVERSITY OF CALICUT

GPA: 75%

CERTIFICATIONS

Meta Coursera Certificate - React,

- components.
- **Collaborated with UI/UX designers** to ensure seamless integration and superior user experience.
 - **Stayed current with React Native trends**, applying best practices and emerging technologies to enhance app development.
 - **Integrated APIs and third-party libraries**, optimizing functionality and ensuring smooth data flow between app and server.
 - **Implemented React Navigation**, creating intuitive user journeys and seamless navigation.
 - **Managed project activities** using Agile methodologies, including daily stand-ups and sprint planning, to ensure timely delivery.
 - **Utilized Redux** for efficient state management, improving app performance and user experience.
 - **Achieved successful app launches**, demonstrating strong project management skills and effective team coordination.
 - **Refined app performance** through rigorous testing and optimization, leading to enhanced stability and user satisfaction.
 - **Managed team resources** to deliver on sprint goals within expected timeframes.
 - **Supported software code review, system integration and validation** in line with company and regulatory requirements.

PROJECTS

Client Project Delivery

- Led a Scrum team to deliver a real-life MVP integrating a React front-end with a Spring back-end, including authentication and CI deployment to GCP.

Spring Boot Project

- Developed and documented a well-architected API using Spring Boot, adhering to modern design patterns, and deployed it on GCP.

Java Project

- Built a Java OOP application with multiple models and classes to manage complex game logic from the command line.

React API Project

- Created a React application that interfaces with an external public API, presenting data in a user-friendly dashboard or multipage layout.
